

## BIOPROTECT™ FOR FOOD CONTACT SURFACES

BIOPROTECT™ RTU, or Ready To Use, is a water-based, antimicrobial shield that adds a layer of protection, preserving and continuously protecting finished food contact surfaces. BIOPROTECT RTU also helps keep surfaces clean between regular cleanings.

**Can be used on food preparation surfaces, including (but not limited to):**

- ◊ Cookware made from any material
- ◊ Countertops and cutting boards
- ◊ Food wrap, including aluminum foil, plastic wrap, coated deli paper and plastic trays
- ◊ Collection and storage equipment
- ◊ Storage containers of any material
- ◊ Industrial prep and processing equipment/machinery
- ◊ Paper products such as wipes, tissues, wall coverings, towels and more
- ◊ Sinks and other vessels used for cleaning and transporting food and beverage products
- ◊ Carbon water filters and other drinking water filter media

*\*\* Full list of approved uses and claims can be provided upon request*
